"Alep is a city in distress... families have left Aleppo for safer places ... They are so afraid ... With the faith and light communities, we can still live the joy and friendship ...

A family, whose young boy of 12 was killed by a missile Hawn, had a memory card of his death printed and on the back of it they noticed the prayer of Saint Francis of Assisi ... They were able to forgive and to call others to become peacemakers, despite all their great pain ... With open hands and in silence, I receive the light of the risen Jesus. »
